

# Progressive Edge Lean Six Sigma Green Belt

(Note: No prior training required before attending this session.)

Live Instructor and Students on-line via Zoom

Spring 2022

During this 6-day course, students will learn Lean Six Sigma (LSS) concepts that apply to all industries (healthcare examples included) and apply them to a current project to deliver real business results. This training aligns with ASQ BOK and provides 4 CEUs (CECs, RUs, PDUs) upon completion of classes and the required project. The project will target an annualized hard savings of at least \$40,000; our LSS Green Belt teams have historically delivered an average savings of \$130,000 per project. This is Green Belt Certification Training with a LSS Certificate of Completion awarded.

**\$1,700**  
**\$1,500 per student\***

## Class Schedule

<p><b>February 7, 8, 9</b></p> <p>+</p> <p><b>March 7, 8</b></p> <p>(All classes start at 10:30 am CT and end by 4:00 pm CT)</p>	<p>Topics covered include: LSS overview, selecting projects, LSS deployment, wastes, value stream mapping, 5S, process flow, variation, performance measures, quality concepts, control charts, measure system analysis, failure mode &amp; effects analysis, cause &amp; effect, kaizen, flow, pull, kanban, set-up reduction, introduction to design of experiments, mistake proofing, standards, controls, and final exam.</p>
