

ProgressivEdge Lean Six Sigma Green Belt

(Note: No prior training required before attending this session.)

Location: Pasadena, CA

First Class: February 3, 2020

During this 6-day course, students will learn Lean Six Sigma (LSS) concepts that apply to all industries (healthcare examples included) and apply them to a current project to deliver real business results. This training aligns with ASQ BOK and provides 4 CEUs (CECs, RUs, PDUs) upon completion of classes and the required project. The project will target an annualized hard savings of at least \$40,000; our LSS Green Belt teams have historically delivered an average savings of \$130,000 per project. This is Green Belt Certification Training with a LSS Certificate of Completion awarded. ProgressivEdge's in-person classes provide engaging, hands-on instruction. Our Pasadena location is conveniently located just off the 210 freeway.
